

# SAVING THYME

PÂTISSERIE • BISTRO • PREPARED FOODS

## NOW HIRING!

We create joy! By using all of our skill and talent to create incredible food we become a part of the special moments in people's lives. This is an enormous privilege and responsibility and we take it very seriously. It is an exciting time to join a growing and ever improving company. Take the opportunity to be a part of something great and have a hand in shaping the company for the future!

While previous experience working in food service, retail or customer service is great, what is most important is who **you** are.

There is only one catch, you must be available to work on weekends, early mornings or day shifts. (trust us, having Mondays off is great!). A normal day will start in the morning and finish early in the afternoon and will be spent in a lovely, French inspired atmosphere that always smells amazing sounded by a great team!

We always offer paid training, health and dental benefits for our full-time staff, flexible hours and a generous hourly wage plus tips!

Think you would be a perfect fit? Send an email to [gm@savingthyme.ca](mailto:gm@savingthyme.ca) with your resume. We look forward to hearing from you!
